SangVareh Stone

SVS IRAN

Extracting and using building stones in Iran, has a long history. Using these stones as building materials or for columns, handicrafts and other objectives was so common in the first millennium of formation of civilization in Iran. The vesige of using stone in Persepolis, Pasargadae, and many other historical buildings is distributed all over the country and many other historical buildings is distributed all over the country and this Art has been lasting till modern ages in its new forms.

To respect gentility of the ancient art, Sangvareh company is honored to use the famous cedar tree of Persepolis in its logo

SANGVAREH Started Working in 2003 With enthusiasm in natural nature of stone to provide best matching texture and color for projects in different levels through providing first quality blocks slabs and tiles of different iranian marble, travertine, onyx and limestone.

Serving tastes and needs of all markets around the world who are seeking for iranian natural stone, is the main goal of sangvareh stone company for now and ever.

The image displays a close-up of a Golden Black Marble surface. The background is a deep, dark charcoal or black color, which is intricately veined with a complex network of thin, light-colored lines. These veins, which range from off-white to a pale, shimmering gold, are irregular and organic in shape, creating a rich, textured appearance. The lighting highlights the fine details of the veining, giving the surface a sense of depth and movement. In the upper left corner, there is a small, semi-transparent teal square containing a grid of white squares. In the upper right corner, there is a semi-transparent teal square with a white grid pattern. The text 'GOLDEN BLACK MARBLE' is printed in a clean, white, sans-serif font across the upper left portion of the image.
